

# SPECIFICATIONS

## ARTICLE

Designation : **AlphaTec® 23201 PVC glove**

Code bobet :

**21313 : S.7**

**15440 : S.8**

**15441 : S.9**

**24022 : S.10**

Selling Unit : **pair**

*Non-contractual pictures*

## CHARACTERISTICS

### AlphaTec®

- Industrial protective glove. Supported PVC glove, blue coloured
- Coating material : PVC
- Liner material : Cotton
- Grip surface : roughened sandblast finish
- Length 620 mm (long cuff) and thickness 1.60 mm
- Gauge : 13

## PERFORMANCES :

- Good dexterity and flexibility at low temperatures
- Good grip in handling both wet and slippery materials thanks to the roughened sandblast finish
- The seamless liner offers very good comfort in use
- Its heat-sealed cuff provides resistance against liquids and protection against dust only

## APPLICATIONS :

Main industrial sectors : Automotive industry, food processing, oil and gas industries

USE LIMITS : Do not use to protect against flames, or against temperatures  $<-20^{\circ}\text{C}$  or  $>80^{\circ}\text{C}$

## STANDARDS :

Complies with EU regulation 2016/425 relating to industrial protective equipment (category III)

Complies with European standards:

- General requirements: EN ISO 21420:2020
- Mechanical resistance: EN 388:2016 + A1:2018 3121B
- Chemical resistance: EN ISO 374-1:2016 Type B KLT
- Microorganisms: EN ISO 374-5:2016

Complies with EU Regulation 10/2011 on plastic materials and plastic articles intended to come into contact with foodstuffs and all its amendments.
