CHARACTERISTICS

Exemple montage kit magnétique code 21630 sur distributeur universel

Modularity, compliance with surfaces / High magnetic power / Optimum slip resistance

- Media friendly and safe fixation
- Easy to implement and quickly dismantled
- Rubber to protect surfaces, leaving no trace, ot food safe
- Colour : white
- Resistance to water, detergents, alcohol, bad weather
- Maximum working temperature : 60° C max
- Components : N35M neodymium magnets and SEBS elastomer

- Code 21299 :

- * Diameter 31 x Thickness 6 mm
- * Thread : M5
- * Typical tensile strength : 8.9 kg
- * Typical slip resistance : 1.8 kg
- * Weight: 0.025 kg

- Code 21298 :

- * Diameter 66 x Thickness 8.5 mm
- * Thread : M6
- * Typical tensile strength : 25 kg
- * Typical slip resistance : 7.5 kg
- * Weight : 0.118 kg

- Code 21975 :

- * Diameter 88 x Thickness 8.5 mm
- * Thread : M6
- * Typical tensile strength : 55 kg
- * Typical slip resistance : 12.5 kg
- * Weight : 0.215 kg

- Magnetic set D.31 (code BOBET 23223) including : 2 magnets D.31 code 21299 + 2 extra-large washers D.5 code 2959 + 2 nylon flat washers D.6 code 2991 + 2 screws with hexagon head D.5 x 10 code 2395

Ideal for fixing the dispenser for box of masks code 21468 or the dispenser for box of disposable gloves code 21469

N.B.: Dispenser sold separately

- Magnetic set D.66 (code BOBET 21630) including : 2 magnets D.66 code 21298 + 2 extra-large washers D.6 code 2960 + 2 nylon flat washers D.6 code 2991 + 2 screws with hexagon head D.6 x 8 code 21621

Ideal for fixing universal dispensers code BOBET 3749 and 19227 (see example on above picture) or the electronic soap dispenser with wall bracket code 70742

N.B.: Universal dispenser sold separately

- Magnetic set D.88 (code BOBET 23224) including : 2 magnets D.88 code 21975 + 2 extra-large washers D.6 code 2960 + 2 nylon flat washers D.6 code 2991 + 2 screws with hexagon head D.6 x 8 code 21621

Ideal for fixing the dispenser for coats and coveralls code BOBET 70532

N.B.: Dispenser sold separately
