DISPOSABLE SAFETY KNIFE WITH 3 FUNCTIONS (REMOVE PLASTIC FILMS, CUT STRAPS, TEAR)

- Disposable safety knife
- Body : polypropylene and blade : steel
- 3 functions : remove plastic films, cut straps, tear
- Ergonomic, gestural comfort
- Avoid all carpal problems or tendinitis
- No contact with the blade
- Easy to use for both right and left handers
- PAH content is under the requirements of the standard

DESCRIPTION :

- Maximum safety : no contact with the blade (fixed blade)
- Reinforced protection
- Can be fixed on the pocket
- Non cutting metal insert to tear adhesives
- Spike to drill plastic films
- Fixed blade

APPLICATION :

USERS : Storekeepers, receivers, handlers...

OPERATING:

- Engage the cutting part where you want and slip the knife to cut the support
- To cut plastic straps, do not cut from the front but through an angle of 30° to 45°
- To tear the adhesive which encircles the box, use the metal insert at the back

Designed to easily open boxes, cut plastic films, plastic rings and tear adhesive tapes around parcels

STANDARDS :

In compliance with the regulation n°1935-2004 (EC) of October 27, 2004.
