CHARACTERISTICS

SAFETY KNIFE WITH RETRACTABLE BLADE AND METAL INSIDE FOR BOTH RIGHT AND LEFT HANDERS

- Reversible blade
- Aluminum handle and metal inside
- Retractable blade by spring : the blade automatically withdraws into the handle, as soon as the cutting edge leaves the item to cut, if the sliding is not maintained
- Remove the thumb from the sliding during cut.
- Maximum safety : the pressure on the cardboard is enough to keep the blade out, even after having released the sliding
- Change right/left handers :
The cutter is delivered with the blade for right handers. For left handers, the blade has to be output and fixed in the other way.

COMPATIBLE BLADES :

* Code 9512 : Steel trapezoidal blade with big holes. Sharpening 18° for soft material.

Dimensions : L.54 x H.19 mm

Packed by cases of 10 blades.

* Code 15907 : Stainless-steel trapezoidal blade with big holes.

Dimensions : L.54 x H.19 mm, thickness 0.63 mm

Packed by cases of 10 blades.

* Code 24735 : Stainless-steel trapezoidal blade with big holes.

Dimensions : L.65 x H.19 mm, thickness 0.63 mm

Packed by cases of 10 blades.
