CHARACTERISTICS

- Full container without handle.
- Stainless steel food container.
- Resistance :
 - * Reinforced corners and edges to reduce buckling in case of falls or impacts.
 - * Optimized life-time (thickness from 7/10th to 8/10th).
- Handling :
 - * Reinforced corners : remove the handling problems on racking trolleys and in ovens.
 - * Less effort when handling loaded : limited weight.
- Hygiene :
 - * No contact with food when handling in bain-marie : adapted edge height.
 - * Easy to clean : by submersion as in automatic washers.
- Storage :
 - * Removes stacking problems in storage (e.g.: no sticking, space saving) : upright shape with stacker.
- Ergonomics and design :
 - * Easy grip of containers : when handling (separation of containers, coming out of the oven, trolleys, etc.), in bain-marie.
 - * Optimized aesthetics for self-serve restaurants : design of the rib.

STANDARDS :

Norme NF EN 631-1 : Materials and articles in contact with foodstuffs. Pans for kitchen and catering containers.

The NF mark is a process decided by the company. This sign recognizes the quality allocated to the products by AFNOR, in compliance with French and European technical standards and specifications. The NF mark guarantees that products purchased comply with regulatory requirements.

APPLICATION / MAINTENANCE :

Stainless steel is easy to clean and keep clean. Drying quickly will prevent water stains from forming.
