

# SPECIFICATIONS

**ARTICLE**Designation : **HYCRON® 27600 glove**Code bobet : **778 : S.10**Selling Unit : **pair***Non-contractual pictures***CHARACTERISTICS**

- Coating by dipping, Nitrile, Cotton jersey, Knit wrist
- Length: (9) 260mm, (10) 272mm
- Robust and solid glove for heavy duty: 3 times more durable than leather for heavy duty applications.
- Ansell's unique nitrile formulation: offers superior resistance to sharp and abrasive materials.
- Stronger and more flexible than PVC: the coating repels oils, grease and dirt.
- Soft jersey support: provides a cushioning and protective layer for the hand.
- No seams in the contact areas: comfort for the user and reduced tendency to wear and tear.
- Anatomical finger shape: special design for greater freedom of movement.
- Excellent dry grip: makes handling easier and safer.
- Silicone-free: guarantee of cleanliness for metal and automotive construction.
- Machine washable: hygienic and increased durability

**APPLICATIONS :**

Construction materials, rough timber (steel bars, sheet metals, cans and other metal products...), plywood, cold plastic mouldings, heavy-duty cables, rough castings and cores, street cleaning and refuse collection

**RECOMMENDED STORAGE / APPLICATION :**

- Store the gloves away from direct sunlight, in a cool, dry place, and keep them away from any exposure to ozone or any source of ignition.
- Do not use against flames or temperatures of < - 25°C or > 160°C.
- Do not use non-waterproof gloves as chemical protection.

**STANDARDS :**

Complies with EU regulation 2016/425 on PPE (category II)

Complies with European standards:

- General requirements: EN ISO 21420: 2020
- Mechanical risks: EN 388:2016 + A1:2018 4121B
