APPLICATIONS :

Gardeners works, poultry farming, oyster farming, perfumes manufacture, manufacture of composite structures, masonry, aircraft maintenance, manufacture of inks and dyes...

- Construction Industry (Masons / Plasterers): Preparing and pouring mortar and cement
- Aeronautics industry : Work with composite material (resins)
- Local Authorities (Cleaning): Handling household detergents

RECOMMENDED STORAGE / APPLICATION :

For better safety and a longer lifetime :

- Store the gloves in their original packaging protected from direct sunlight, far from heat sources or electric equipment.
- It is recommended to check that the gloves are suitable for the intended use, because the conditions of use at the workplace may differ from the "CE"-type tests.
- It is not recommended for persons sensitized to natural latex, dithiocarbamates and thiazoles to use these gloves.
- Put the gloves on dry, clean hands.
- Use 2 pairs alternatively when in long duration contact with a solvent.
- Turn the cuff end down in order to prevent a hazardous chemical from dripping onto the arm.
- Ensure the inside of the gloves is dry before putting them on again.

- Inspect the gloves for cracks or snags before reusing them.

LAUNDERING CONDITIONS :

- In use with a solvent (alcohol, etc...) : rub over with a dry cloth
- In use with detergents, acids or alkalies : thoroughly rinse the gloves under running water, and rub over with a dry cloth
- Caution : inappropriate usage of the gloves or submitting them to a cleaning or laundering process which is not specifically recommended, can alter their performance levels.

STANDARDS :

Complies with EU regulation 2016/425 relating to personal protective equipment: category III

Complies with the following European standards:

- General requirements: EN ISO 21420:2020
- Chemical protection: EN ISO 374-1:2016 Type B KPT
- Heat protection: EN 407:2020 - X1XXXX
- Protection against mechanical risks: EN 388:2016 + A1:2018 2131X
