

SPECIFICATIONS

ARTICLE

Designation : **Sablux glasses**

Code bobet : **15780**

Selling Unit : **pair**

CHARACTERISTICS

- Nylon frame
- Nylon side arms, extensible spatula style
- Stainless steel screw
- Lens : polycarbonate, colourless and scratch resistance, thickness : 2.2 mm
- Frame colour : blue
- Frame marking : FT
- Lens marking : 2-1.2 1FTK
- Weight : 36 g

BENEFITS :

- General protection (face and sides)
- Adjustable side arms
- High resistance to impacts at extreme temperatures (from -5 to +55°C)
- Optical Class 1
- UV rays and scratch resistance treatment
- Panoramic vision

APPLICATION :

Protection against mechanical hazards (industry, building)

STANDARDS :

In compliance with the European Regulation UE 2016/425 on personal protective equipment

In compliance with the European standard :

- EN 166:2001 : General specifications
- EN 170:2002 : UV filters test methods

2-1.2 1FTK

- UV Filtration : 2
- Eyepiece color: 1.2 light
- Permanent wearing : 1
- Eye protector protecting against high speed particles at extremes temperature only : F
- Eyepiece resistant to scratches caused by fine particles : K
