CHARACTERISTICS

- Oval (code 2005) or round (code 2006) - 30 cm = 12"
- Hard chrome plating
- Blue and black hygienic plastic handle
- Fine cut

The production technologies of DICK sharpening steels guarantee a longlasting and wear resistant use. The special handles ensure a safe grip.

- Balanced taper towards the tip of the steel
- Regular serrations
- Wear-resistant surface with breakproof, tough core
- Efficient surface protection through hard chrome plating
- Safety through high-quality fittings
- Ergonomically formed and optically representative handles
