**CHARACTERISTICS**

## MANUAL SLICER

- Material: ABS plastic / stainless steel
- White color
- Dimensions: 305 x 400 x 111mm
- Weight: 1,44 Kg
- Types of cheese: Soft and semi-hard cheese (particularly suitable for cutting smaller and softer cheeses)
- Straight cut with precision
- Ease of use
- Dishwasher safe
- Attractive and elegant visual, ideal for counters
- Two types of non-slip feet for optimal support
- Supplied with 6 spare cutting lines
- NSF Certificate

## MANUAL :

Place the cheese on the Cheese Commander pro+® and take the handle wire from the board. The wire allows a clean and easy cut. You get pieces with a clean and smooth cut, without any shedding. The Cheese Commander pro+® allows you to cut cheese in half, but also in small pieces or thick slices. After each movement, the cutting line returns to its original position, which facilitates the work.
