CHARACTERISTICS

Fast thermometer for core measuring

Includes : Protective cap, fixing clip, TopSafe, battery

The Testo 106 thermometer suits for all fast temperature measuring in any application, for ex. in gastronomy, hotel, kitchens, supermarkets... Very handy and always within hand reach, this small measuring instrument fits in any pocket. Thanks to its thin and tough measuring tip, it suits for smaller foodstuffs.

Thermometer with TopSafe (watertight protective cover, IP67, dishwasher safe), fixing clip with protective cap and battery.

- This thermometer Testo 106 suits for fast measuring of core temperature thanks to its thin and tough measuring tips.
- Automatic recognition of the final value (Auto-Hold)
- Almost invisible drilling with the special food probe
- Acoustic and visual alarm
