CHARACTERISTICS

Pocket infrared thermometer

The Testo 805 pocket thermometer measures temperatures without contact. With its 80-mm height, it easily fits in a pocket and always is within easy reach. TopSafe (protective cover) makes the instrument more tough and watertight.

This pocket thermometer can be used anywhere, for ex. : incoming goods, controls in the fresh departments of the supermarkets. It also is suitable for all types of quick measuring in food industries or just at home.

ADVANTAGES :

- Small and handy, fits in a pocket
- High accuracy for food industries
- Tough protective cover
- Watertight thanks to TopSafe (IP65)
- TopSafe is dishwasher safe
- Display of mini and maxi rates
- "Scanner" mode for permanent measuring

Accuracy	Terms ()
Parameters	°C / °F
Range	-25...+250°C
Resolution	0.1°C (-19.9...+199.9°C) 1°C (Residual range)
Emissivity	0.95 (adjustable 0.95 or 1.00)
Probe	Integrated infrared probe
Response time	< 1.0 seconde
Temperature of use	0...+50°C
Temperature of storage	-20...+65°C
Supply	1 x lithium type CR 2032
Battery life	40 h (standard use)
Measuring beam	1:1
Dimensions	L. 80 x W. 31 x Th. 19 mm
