**CHARACTERISTICS**

Abrasive belt with profiled ceramic grain on polyester cloth backing, for grinding steel and stainless steel, especially knife blades.

- Support : polyester cloth
- Mineral : Ceramic corundum
- Particle size : P100 to P180
- Specially designed for water grinders
- Reduces the negative effects of overheating metals

- The ceramic grains are precisely profiled and calibrated in triangle shape and then oriented vertically on the belt. Longer service life due to self-sharpening ceramic grain. Excellent grain adhesion due to Advanced Coating. Highly tear-resistant polyester technology and backing.

APPLICATION :

Sharpeners for knives and other blades.
